

#3

Project 3:

Assembly unit for radiology tables

Sub-sector:
Medical devices

Description

Table assembly unit designed for radiology; tables consisting of a tray on which the patient sits, an arch to support the X-ray tube and a system to receive the film cassette. They provide dynamic images of the whole body.

Highlights

Increased investment in high-performance technical facilities that meet international standards by Moroccan radiologists in the university, private, military and public sectors.

Financial indicators

- Potential investment : ~40 - 60 Mns MAD
- Potential sales : ~70 - 100 Mns MAD
- EBITDA (as % of sales) : ~5% - 15%
- Jobs : ~30 - 50 direct jobs

Morocco's main importing countries

- China
- United States

Main inputs required

- Metal
- Plastic
